

Results 2023-24

I'm a firm believer that headline results from statutory testing do not show the true day to day learning, fun, excitement and vibrancy of everyday school life, nor do they show the progress that the children make to get to this point... but they are a part of what we do and they should be celebrated when possible...and as such – here's this year's amazing results from across the school's statutory assessments:

- Percentage of children achieving a 'Good Level of Development' (GLD) in Reception: **72%** (our best result for the past three years).
- Percentage of children passing the Year 1 phonics check: **86%** (our best result for the past three years).
- Percentage of children achieving full marks (25/25) in the Year 4 Multiplication Check: **60%** (the National Average is ~35%!) and an average score of **86%**!
- Percentage of children achieving the expected standard in the Year 6 reading test: **76%**
- Average scaled score in reading: **104.2**
- Percentage of children achieving the expected standard in Year 6 writing: **61%**
- Percentage of children achieving the expected standard in the Year 6 maths test: **69%**
- Average scaled score in maths: **101.5**
- Percentage of children achieving an expected combined score in Year 6 reading, writing and maths: **53%**
- Percentage of children achieving a higher combined score in Year 6 reading, writing and maths: **2%**

Congratulations to everyone involved in these assessments – they are brilliant results and everyone should be very proud!
